## Fuel Cost (estimated) for 12,000 miles

Re-calculated annually, the cost per litre as at Mar 2012 is as follows - petrol 139p, diesel 147p and LPG 74P.

£1449

## VED for 12 Months

Vehicle excise duty (VED) or road tax varies according to the CO<sub>2</sub> emissions and fuel type of the vehicle.

£115

### \*Important Note

The fuel consumption figure shown is taken from the official test results obtained from this vehicle type when new. It is intended to provide a standard figure for comparing the relative fuel economy of different vehicles of a similar age and condition and does not represent the average fuel consumption that will be achieved on the road. A number of factors not included in the official new vehicle test will affect the fuel consumption achieved on the road including: vehicle age, how it has been maintained, road/weather conditions and driving style.
